

Mid-Atlantic Commercial Research, LLC (MCR) provides professional and technical services to commercial clients. MCR services may involve the development of new products or processes, optimization of existing technology or finding solutions to specific technical problems.

MCR's staff includes:

- Ph.D. Researchers
- Analytical, Catalyst, Computational and Process Chemists
- Chemical, Environmental and Process Engineers
- Computer Modeling Experts and Statisticians
- Laboratory Technicians and Technical Staff

*MCR is a wholly-owned for-profit with its own Board of Directors.*

Creating OPPORTUNITY is a specialty of MATRIC. Whether it lies in taking advantage of underutilized existing facilities and an extant talent pool; as MATRIC has done at its South Charleston, WV headquarters, or in helping a customer reformulate one of its products and increasing that product's sales ten-fold, the MATRIC family of companies seeks to turn lemons into lemonade. This can-do attitude embodies MATRIC's corporate culture.

From inception, MATRIC's mission has been two-fold: (1) to conduct life-changing research and development and (2) to contribute to economic development through the commercialization of its own and others' intellectual property. Research alone can't change lives, but bringing the results of research to the marketplace certainly can.

Whether you join the MATRIC family as an employee, as a customer or as a partner, you can be sure that you will always be a valued member of the team. To learn more about benefits, services and other OPPORTUNITIES, visit our Web site at [www.matricresearch.com](http://www.matricresearch.com)

Mid-Atlantic Technical Engineering, LLC (MATE) provides professional engineering and construction support for projects in the following markets:

- Biofuels
- Chemicals
- Coal to Liquids
- Natural Gas

MATE's staff includes:

- Professional Engineers
- Project Managers
- Design Specialists
- Procurement Specialists
- Technical Specialists
- Construction Managers

*MATE is a wholly-owned for-profit with its own Board of Directors.*

Mid-Atlantic Holdings, Inc. (MAH) holds title to all intellectual property created by MATRIC, as well as any equity positions that MATRIC holds in other businesses. Income from license agreements, royalties and dividends are used to conduct internally funded research projects that have the potential to be marketable and is also used to cash-flow new projects of MATRIC and MCR and to assist new business startups.

MAH provides commercialization assistance for select marketable intellectual property in our core areas of expertise:

- Biofuels (bio-diesel, cellulosic ethanol)
- Biomass-derived polymers
- Gas phase separations (CO<sub>2</sub>, methane)
- Nano-materials

*MAH is a wholly owned for-profit with its own Board of Directors.*

Mid-Atlantic Technical Consulting, LLC (MATC) provides the consulting services of Ph.D. level or otherwise-certified subject-matter experts.

Types of services include:

- All Types of Analyses
- Documentation & Training
- Operational Reviews
- Proposal Development
- Project Evaluations
- Safety Assessments
- Trade Studies

*MATC is a for-profit, employee-owned partnership with its own Board of Directors and a managing partner.*

Opportunity is Knocking
